Water supply and sanitation in Ghana - Wikipedia

Drinking water supply and sanitation in Pakistan is characterized by some achievements and many challenges. [citation needed] Despite high population growth the country has increased the share of the population with access to an improved water source from 85% in 1990 to 92% in 2010, although this does not necessarily mean that the water from these sources is safe to drink.

Water supply and sanitation in Pakistan - Wikipedia
