Renewable energy commercialization involves the deployment of three generations of renewable energy technologies dating back more than 100 years. First-generation technologies, which are already mature and economically competitive, include biomass, hydroelectricity, geothermal power and heat. Second-generation technologies are market-ready and are being deployed at the present time; they ...

Renewable energy commercialization - Wikipedia

The Cape Wind Project was a proposed offshore wind farm on Horseshoe Shoal in Nantucket Sound off Cape Cod, Massachusetts, United States. It was approved but then lost several key contracts and suffered from several licensing and legislative setbacks. The developer, Jim Gordon of Energy Management Inc, eventually terminated the lease rights for the site in late 2017.

Cape Wind - Wikipedia

Energy Saving Trust is a social enterprise with offices in England, Scotland, Wales and Northern Ireland. We work with householders, governments and businesses across the UK and internationally.

Save energy at home | Energy Saving Trust

Hinkley still scores on reliability and low carbon ... but the extent to which its costs are obscene is now plainer than ever. In Monday's capacity auction, two big offshore wind farms came in at £57.50 per megawatt hour and a third at £74.75.

Flexibility is the ability of a power system to respond to changes in power demand and generation. Integrating large shares of variable renewable energy sources, in particular wind and solar, can lead to a strong increase of flexibility requirements for the complementary system, traditionally hydrothermal, which has to balance the fluctuations of variable generation.

Integration of wind and solar power in Europe: Assessment

Statoil has signed an agreement with Polenergia to acquire a 50 % interest in the two early phase offshore wind development projects in Poland.

Germany is still pursuing its goal of shutting down its nuclear plants but refuses to shut down its lignite plants. It is slashing renewable energy subsidies and replacing them with an auction/quota system.

An update on the Energiewende | Energy Matters

We design and install Grid-Tie, Off Grid & Backup Power Systems using solar power systems, wind and/or micro hydro. From mountaintop repeater sites, to remote cabins and residential homes , we have the knowledge & expertise to design and install a wide range of power solutions. Proudly Serving Western Canada since 1993
